

RESIDENTIAL AND COMMERCIAL WASTE SEGREGATION RULES, 2026 (ILLUSTRATIVE)

Sample document generated for RAG test-dataset purposes — not an official publication

1. Segregation Categories

1.1 Every household and commercial establishment shall segregate waste into wet, dry, and hazardous categories at source. 1.2 Hazardous waste includes batteries, expired medicines, and electronic waste, which shall never be mixed with wet or dry waste.

2. Collection Schedule

2.1 Wet waste shall be collected daily, while dry waste shall be collected at least twice a week. 2.2 Hazardous waste shall be collected only through designated collection drives held at least once a month in each ward.

3. Bulk Waste Generators

3.1 Any establishment generating more than 100 kg of waste per day is classified as a Bulk Waste Generator and must process wet waste on-site through composting or biomethanation. 3.2 A Bulk Waste Generator must submit a waste management compliance report to the municipal authority every 6 months.

4. Non-Compliance by Households

4.1 A household found mixing wet and dry waste shall receive a written warning on first detection. 4.2 A second detection within 90 days shall attract a fine of Rs. 200, and collection may be refused until segregation resumes.

5. Non-Compliance by Bulk Generators

5.1 A Bulk Waste Generator failing to process wet waste on-site under Section 3.1 shall be fined Rs. 5,000 per week of non-compliance. 5.2 Failure to submit the compliance report under Section 3.2 for two consecutive cycles shall result in suspension of municipal waste collection services to that establishment.
